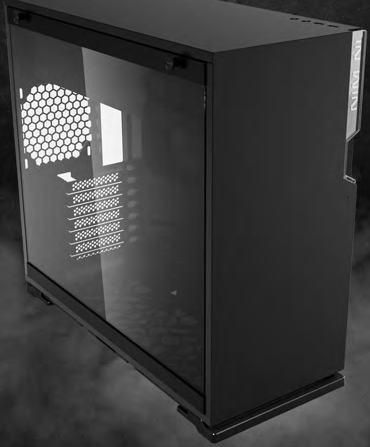
101

Mid Tower

Modest yet Sharp Luminous Front Panel

The 101 hosts a hidden power button, which discretely intermixes with the unique LED logo. The front bezel lights up as the system is powered on. To keep the front simple and clean, the front I/O is positioned at the top, which grants easier access for PCs stored under desks or tables.

* RGB lighting will be available in some regions. For RGB installation, please download on the product page.



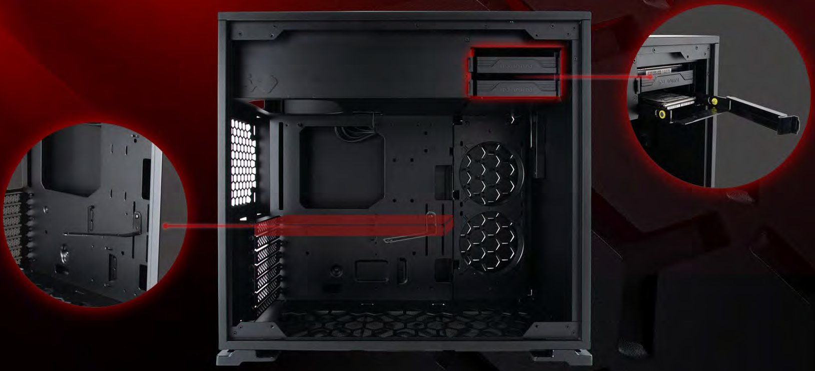
Accelerated Tool-less Design

101 has perfected a tool-less design. The 3mm tempered glass side panelcan be easily removed by pulling the clip and lift up. (Steel and acrylic side panel are available upon request).

Steel ***Tempered Glass*** ***Acrylic***

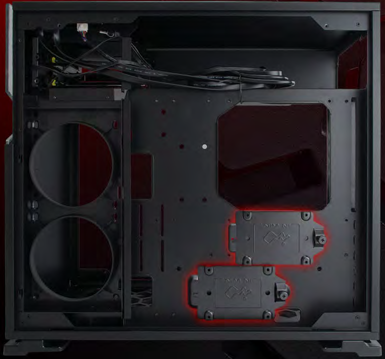
Detail-oriented and Thoughtfully Designed

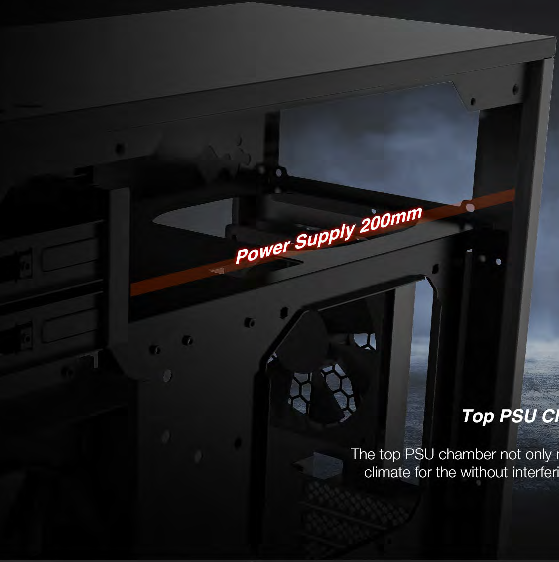
The 101 not only supports 2.5" and 3.5" drive bays, but also mounts with a specialized GPU holder that provides extra support and prevents your graphics card from sagging or unnecessary vibrations.



Detail-oriented and Thoughtfully Designed

Furthermore, there are two 2.5" SSD mounts cleverly positioned in the back of motherboard tray, which avoids clutter and takes advantage of the interior space.





Top PSU Chamber for Better Air Flow

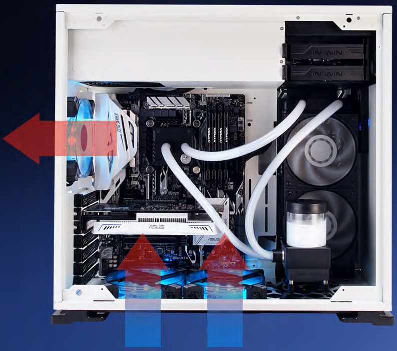
The top PSU chamber not only makes the system cleaner, but also creates an ideal climate for the without interfering with the motherboard and graphics card area.

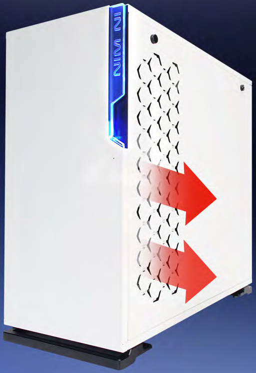
Purge the Dust !

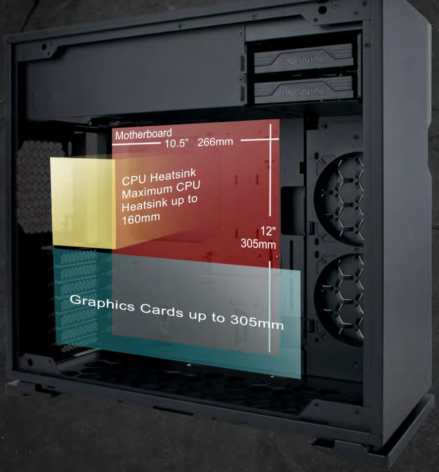
The bottom dust filter is highly accessible and is designed for quick removal. The embedded design allows users to remove the dust filter without any restrictions.

Versatile Cooling Options

The 101 provides high flexibility with cooling performance. Overall, it can support up to 6 fans simultaneously, which enhances cooling performance and can create a stunning gaming rig!







Max.HDD x2

Max.SSD x4
