Desktop Monitor Stand with Cable Hook

StarTech ID: ARMPIVSTND

The adjustable monitor stand lets you mount a display on your desk, with tilt, pivot and height adjustments for perfect positioning.

The monitor stand holds most common displays with ease, supporting monitors from 12 - 30" up to a maximum weight capacity of 30lbs (14kg). For added flexibility, the included hardware can be used to mount your Apple® iMac® or Apple Cinema Display®.

The desktop monitor stand features a 15in (380mm) tall support post, for a much greater range of height adjustments than typical monitor stands can provide. For viewing longer pages or blocks of code without scrolling, the LCD stand also supports landscape to portrait display rotation.

Adjust your display height, position and viewing angles easily to create an ergonomic work environment, with the added benefit of reclaiming valuable workspace on your desk by mounting on a support post above the desk surface.

The ARMPIVSTND is backed by a StarTech.com 2-year warranty and free, lifetime technical support.

 Applications

- Mount a display on your desk or table with tilt, swivel and height adjustment capabilities
- Lift your display higher above your desk surface for ideal viewing angles
- Rotate your display to portrait orientation for web design and coding

Features

- Adjustable monitor stand with several position / viewing angle adjustments
- Supports displays from 12 to 30" (30lbs / 14kg capacity)
- Includes hardware for mounting an iMac or Apple Cinema Display
- Mounting bracket pans 60° around the support post
- Landscape-to-portrait screen rotation
