

USB VGA KVM Console Extender over CAT5 UTP (500 ft)

StarTech ID: SV565UTPU

The SV565UTPU USB VGA KVM Console Extender over CAT5 UTP (500 ft) lets you control a server, computer or multiple computers (connected through KVM Switch) over a standard Cat5 or Cat6 UTP network cable connection, at distances of up to 500 ft (150 m) away. PC connection cables are included with this product for a ready out of the box solution.

You can use your existing keyboard, mouse, and monitor to access both the server room and your office computer, saving space and avoiding the need for a dedicated remote console by allowing you to switch between workstation view and KVM view at the remote location.

Backed by a StarTech.com 2-year warranty and free lifetime technical support.
