1m Thunderbolt 3 USB C Cable (40Gbps) - Thunderbolt and USB Compatible

Product ID: TBLT3MM1MA

This Thunderbolt™ 3 (40Gbps) cable lets you connect to any Thunderbolt 3 (USB-C™) port to deliver video and data to your Thunderbolt and USB devices. Plus, the cable can provide power for charging your devices.

Faster data transfers when connected to Thunderbolt devices

This cable supports data transfer rates of 40Gbps when connected to a Thunderbolt 3 device, so you can transfer photo and video files at four times the speed of a USB 3.1 Gen 2 (10Gbps) cable. For example, you can transfer a 4K movie in seconds.

USB-C compatible

You can also use the Thunderbolt 3 cable to charge and sync your USB 2.0, USB-C mobile devices.

Full 5K video or dual 4K video

The cable supports up to 5K 60Hz video for astonishing resolution, contrast, and color depth with a Thunderbolt monitor. It can also be used with a Thunderbolt 3 dock to drive dual 4K displays.

This cable does not support native DisplayPort 1.2. You cannot connect your Thunderbolt 3 laptop directly to a DisplayPort monitor using this Thunderbolt 3 cable.

Versatile power delivery

This Thunderbolt 3 cable delivers up to 100W of power for charging a laptop. It lets you keep your Thunderbolt 3 devices powered without having to carry around an additional power supply.

Thunderbolt networking

The cable gives you an easy way to bridge multiple Thunderbolt 3 USB-C enabled laptops for peer-to-peer 10GbE networking. It's perfect for setting up small workgroups and sharing peripherals such as printers and storage. You can also connect two Thunderbolt 3 laptops together, for easy PC migrations.

The TBLT3MM1MA is backed by a 2-year warranty.
